Pears are now at their best for canning purposes, other fresh fruit being scarce and very high priced should make pears in big demand.
50 lb. BOX \$2.50

Cantaloupe each 10 cents

Water melon 2 1-2 cents lb.

GREEN CORN, FRESH STRING BEANS, CUCUMBERS, SQUASH

FRESH MILK BUTTER MILK AND YARD EGGS

Gold Avenue Grocery

204 S. GOLD AVE.

PHONE 143

MILK \$45.00 AN INCH:—

That's what an inchless milk at a milking—in a ten quart pail, will mean to a cow owner in 300 days. One inch extra in the bucket at each milking will nearly pay the entire cost of cow chow.

A cow can't eat enough mid-summer or fall grass to get sufficient protein for maximum milk. It takes very little PURINA COW CHOW to supply this balance. The extra milk more than pays for the cow chow.

We will deliver the Cow Chow at your door, (in Deming) for \$3.50 per 100. Try a sack and note the difference.

TRI-STATE RODEO TO BE HELD HERE SEPT. 22-24

ALBUQUERQUE.—Plans for the staging of a three day rodeo with cowboys from the southwestern states competing, were announced by J. H. Toulouse, representing the National Disabled Soldiers League, for the benefit of which the Tri-State Rodeo will be staged. The "show" is to be held in Albuquerque on September 22, 23 and 24, and will be directed by R. D. Garrett and W. W. Worley, both of Tucumcari, N. M.

It has been planned that the first day will be Governor's day, and Governor M. C. Mechem will be requested to invite the governors of Colorado, Arizona and Texas to be here then.

Garrett and Worley plan to bring a string of about 60 horses to Albuquerque for the show. They are counting on about 150 contestants from among the best cowpunchers of the southwest.

The usual run of cowboy stunts will be exhibited, including broncho busting and bull-dogging. In addition, there will be a clown rider, who is rated one of the best in the business. It was through former Secretary H. B. Watkins, of the Chamber of Commerce that Garrett and Worley were induced to stage the Duke City rodeo.

The rodeo will be used to provide a fund from which to defray the expenses of the annual convention of the Disabled Soldiers' League, which is to be held in Albuquerque next year. Because of this purpose the officers are asking for excursion rates into Albuquerque at that time and have had reasonable assurance that they may be obtained.

A special event to be entered by Kiwanians and Rotarians of Albuquerque is being planned. There will be a wild cow milking contest, which promises to be very interesting, two cowboys working together as an entry on this event.

Mr. Garrett and Mr. Worley returned to Tucumcari last night after a conference with Major Toulouse here. Mr. Garrett is to return on August 25, and will have an office with Lee Reynolds county agent.

PAYING IMPROVEMENTS TO COST \$37,884.32

LAS CRUCES.—Work will begin here early in October on town paying improvements estimated to cost \$37,884.32. It was announced today by J. H. Paxton, chairman of the board of trustees of Las Cruces.

The program includes the completion of the town's part of the state highway between Las Cruces and El Paso, as well as the paving of the Alameda boulevard and part of a street to connect with the principal thoroughfare.

The paving program, which was turned down by a vote of 27 to 12 at a meeting of property holders ten days ago, was approved by a vote of 34 to 3 at a meeting of the Chamber of Commerce, August 15. The town approved it unanimously at its meeting Aug. 16.

Improvement bonds, payable in 10 annual installments at 8 per cent interest, are to be issued. It is expected that a business man of Las Cruces will underwrite the bonds. In this event, Mr. Paxton says, the work will begin as soon as machinery, men and materials can be assembled.

FOR RENT—Nice, large, front room, furnished; bath and electric lights. See Mrs. J. D. Ramsey, 200 West Pine street.

FOR RENT 7 room house, water and bath on 516 West 8th Street. Inquire R. G. Boswell, 200 South Iron.

Remarkable.

"Well, wife, how do you like your new electric iron?"

"It's a wonderful device. I have been using it all day, and it irons beautifully."

"That is wonderful. The electricity was turned off today."

Paradoxical Plea.

"What evidence did the lawyer use to prove the prisoner did not hatch a plot to kill his rival?"

"Pleaded that his client couldn't hatch a plot to kill because he was too chicken-hearted."

Unaccountable.

Customer—Waiter, I don't understand about this trouser button being in my soup.

Waiter—I don't either, sir. We employ only women in the kitchen here.

The Reason for it.

"All the jokes Borely is so fond of springing on his friends he gets out of the foreign papers."

"Then it is no wonder they are so far-fetched."

Term.

"I believe in term marriage."

"Well, dearie, I wish to defer to your ideas. Let's make it for 99 years, as the leases say."

Her Point of View.

Maud—Can anything be worse than a man who will get sentimental in spite of all you can do?

Edith—Yes, a man who won't.

LAUGHTER OF CHILD SCARCE IN POLAND

"In all the time I was in Poland, I scarcely once saw a child laugh," declared Dr. Harry Plotz, discoverer of the typhus bacillus, in a report to the European Relief Council on medical conditions among the Jewish population of Poland, based on his recent investigations there for the Jewish Joint Distribution Committee.

"The most deplorable sight of all the miseries in Poland is the condition of the children," Dr. Plotz said. "Infant mortality is exceedingly high because of under-nourishment and the high percentage of contagious diseases. In large part mothers must resort to artificial feeding as they are unable to nurse their children. In many cities I saw underfed children, suffering with diseases, wandering about the streets with no place to go, begging for bread."

Tuberculosis has become prevalent among the Jewish children, largely due to the overcrowded conditions in which they are forced to live, their lack of nourishing food and warm clothing, according to Dr. Plotz. Typhus, which killed thousands of Jews last winter in the worst epidemic Poland has ever seen will recur again, he said, as conditions are much worse among the Jews than ever before.

"Parus, a contagious skin disease, is now rapidly spreading from child to child," he continued. "In Vilna there are 11,000 cases among the Jewish children alone. Smallpox, too, is prevalent throughout Poland and the Ukraine and children, with widespread eruptions and temperature, have been seen running about the streets. There are thousands of cases every year, which vaccination would prevent, but there is no vaccine."

Dr. Plotz told how in Lithuanian villages he found children, six and seven years old, unable to walk or talk, the result of malnutrition. In regions where whole towns had been destroyed during the war, he found families crowded in miserable dug-outs.

OPIMUM OUTFIT FOUND ON WOMAN AFTER HER ARREST FOR ROBBERY

SANTA FE.—Carrying a complete outfit, Beatrice Hodge, Alias Beatrice Snowden, negro woman, was arrested on the afternoon of the 16, at the Santa Fe station on the charge of robbing F. E. Kelly of \$26 several nights ago. The arrest was made by Patrolman Herbert Ball and Thomas Hogan and Station Master Ed Sinclair.

Beatrice is said to have approached Kelly on the street and asked him if he wanted to have "a good time." As she got close to him the negro woman is said to have managed to secure his pocketbook. The woman started to run. Kelly gave chase and caught the woman but was unable to find the pocketbook.

The opium outfit which the woman had when arrested included an opium pipe, alcohol lamp for cooking the opium, oil with which the opium was mixed and other small articles which go with the business.

MEXICAN IMMIGRANTS MUST POSSESS \$500

President Obregon has issued a decree under which Russian, German, Swedish and Czechoslovak immigrants having 1,000 pesos each may enter Mexico for colonization purposes. Ismael Magana, acting Mexican consul general, was advised by wire. Hundreds of Europeans are asking for admission to the southern republic.

ROOSEVELT COUNTY BROOMCORN GROWERS FORM ASSOCIATION

PORTALES.—Preliminary steps were taken in the organization of a broomcorn co-operative marketing association at a meeting of the broomcorn growers of Roosevelt county held recently.

TRAINING BOARD REHABILITATES FOUR VETERANS

ALBUQUERQUE.—Four men were discharged as rehabilitated by the federal vocational training board within the past fifteen days, the semi-monthly report of the board issued yesterday states. A total of 33 men have been rehabilitated by the training board since it commenced operations the first of the year.

Only ten men were placed in training during the 15 days ending August 16. The slump is thought to be due to the desire of many men to take a short vacation before entering training.

One hundred and twenty-five new cases were approved for training under section 2 of the vocational training act, providing for training with pay. These approvals are received from the district office in Denver, and authorize the officers here to place the men in training as soon as they are physically or financially able to enter. The board now has 115 men in process of induction, whose applications for training have not been approved by the Denver office.

Eleven hundred twenty-five men have deferred training since the office was opened. Most of these are only waiting until they are in better health to enter training. 28 men have declined training since the office was opened.

The board now has a total of 604 men in training in the state, the report indicates. Of this number 240 are in training centers and 364 are in placement training indicates training where the man is placed in an actual shop or store and given training there in the same way as an apprentice would be taught.

Three hundred and thirty-one men have interrupted training, most of these interruptions being only for a few weeks when the men wish to take vacations. Seven men have discontinued training.—Journal.

BIOLOGICAL SURVEY TO CLEAR LANDS OF RODENT INFESTATION

Twenty-five thousand acres of land in the vicinity of Blue water and Talbot will be cleared of prairie dogs early next spring by the biological survey. It was announced recently by Robert E. Luckenbill chief of the rodent department of the survey, who has recently returned from an inspection trip through that part of Valencia county.

The area to be treated is agricultural land, but is now practically worthless as a result of the infestation of the prairie dogs. The expense of the campaign which will be waged against them will be shared by the biological survey and the farmer on whose lands the dogs are found.

TAX COMMISSION TO LAS CRUCES

The tax commission goes to Las Cruces to look over the water logged lands, J. E. Saint, chairman announced very recently. Owners of these lands complained they were assessed too high. They said they were badly damaged by the rising water table.

"We can't sit here in the office and tell a cussed thing about it," said Mr. Saint, "and we're going down to look over the situation." The lands now are assessed at about \$90 per acre. The water table has risen to the point where the productivity of the land has gone down.

GRAPHIC WANT ADS BRING RESULTS

Rice second sheets are best for duplicating. This can be had at a reasonable price at the Graphic office.

ROSWELL PLANS FOR ANNUAL MEETING OF N. M. WOMEN'S CLUBS

ROSWELL.—Plans are already under way for the entertainment of the State Federation of Women's clubs which has ever attended a federation of October. The federation celebrates its tenth anniversary this fall and it is particularly fitting that the meeting be held in Roswell, since the first state convention was held at Albuquerque. The largest list of registered delegates which has ever attended a federation convention in New Mexico is expected at the meeting.

The entertainment will be in charge of the Women's club, which incidentally is the largest in New Mexico, the Shakespeare club and the Federated Parent Teachers' association. The details of the program have not yet been worked out but the first evening will be given over to the president's reception. Another evening will be music night, which each community in the state will put forth a representative on the program. This will bring together an array of talent which has never before been together in New Mexico. On the third evening of the convention Col. R. E. Twichell will deliver his illustrated lecture on "Women Builed the Temples," a lecture dealing with the early history of New Mexico.

This is the year for the biennial election of officers and it is understood that Albuquerque, Santa Fe and Raton will each have candidates for the presidency.

RANGE CONDITIONS BEST IN YEARS; BANKER FINDS

ALBUQUERQUE.—Range conditions in the great grazing region comprised in western Socorro and Valencia counties are the best in many years, according to G. L. Rogers, vice-president of the First National Bank, who has returned recently from a week's automobile trip in which he covered much of the country west of Magdalena. The range in that section of New Mexico, Mr. Rogers said today, would carry double the livestock now grazing on it.

"I have never seen the range look better in the country west of Magdalena than at present," Mr. Rogers said. "It is one vast expanse of green and looks like a garden. There is feed everywhere. Gramma grass is heading out and maturing and the feed supply will carry everything in that country through the winter. Indeed the range experts of that section declare that double the number of cattle and sheep could be wintered without exhausting the feed supply and my observation convinces me that they are correct. I saw one huge pasture extending as far as the eye could reach knee high in grass and with nothing in it but a little herd of bucks."

"In spite of the financial crisis through which the industry is passing the stockmen are hopeful and much encouraged by the fine range situation. Restocking is, of course, the next problem before them and one still to be worked out."

"There is some encouragement in the prospect for fair prices for lambs and while many stockmen will be forced to sell ewe lambs that should be held on the range, there will be some satisfaction if they get for them the price that now seems reasonably probable."

MEXICAN GENERAL IS PARDONED BY OREGON

General Heliodoro T. Perez, sentenced to death August 14 by court martial at Pachuca, has been pardoned by President Obregon, as requested in petitions to the chief executive by employees of the Mexican National railways. Juarez railway men were advised. Before becoming a military man Perez was a railroad official.
